

Antimicrobials for cancer research

Anticancer compounds include natural products, antibiotics, chemotherapeutic agents, and more.

We have hundreds of anticancer compounds for *in vitro* research.

We are committed to supplying high quality anticancer products to further your discoveries.

Product	Item #	Product type	Mechanism	Cancer type
5-Azacytidine	A095	Chemotherapeutic	DNA methyltransferase inhibitor	Leukemia
Azithromycin Dihydrate	A024	Antibiotic	Mitochondrial biogenesis inhibition	Breast, lung, melanoma, ovarian, pancreatic, prostate melanoma
Bevacizumab, Lyophilized powder	B077	Monoclonal antibody	Angiogenesis inhibitor	Brain, cervical, colorectal, kidney, lung, ovarian
Bleomycin ReadyMade™ Solution	B096	Antibiotic	Telomerase activity inhibition	Non-Hodgkin's lymphoma, penile, squamous cell carcinoma, testicular
Carboplatin	C115	Chemotherapeutic	DNA repair interference	Breast, cervical, lung, neck, ovarian
Chloramphenicol ReadyMade™ Aqueous Solution	C090	Antibiotic	Mitochondrial biogenesis inhibitor	Brain, breast, DCIS, lung, melanoma, ovarian, pancreatic, prostate
Cisplatin	C203	Chemotherapeutic	DNA replication inhibition	Sarcomas, carcinomas, bladder, ovarian, testicular
Daunorubicin Hydrochloride	D001	Chemotherapeutic	Topoisomerase II inhibitor	Leukemia
Doxycycline Hydrochloride	D065	Antibiotic	Mammosphere formation inhibition	Brain, breast, DCIS, lung, melanoma, ovarian, pancreatic, prostate
Erythromycin ReadyMade™ Solution	E096	Antibiotic	HERG modulator	Lung, leukemia, neuroblastoma
Doxorubicin	D063	Antibiotic	Topoisomerase II inhibitor	Breast, bladder, lung, ovarian, stomach
Geldanamycin ReadyMade™ Solution	G095	Antibiotic	Heat shock protein 90 (Hsp90) inhibitor	Various
Methotrexate	M027	Chemotherapeutic	Dihydrofolate reductase (DHFR) inhibitor	Brain, breast, lung
Mitomycin C	M009	Natural diterpene	DNA synthesis inhibitor	Bladder, stomach, skin, pancreatic
Moxifloxacin Hydrochloride	M033	Antibiotic	Topoisomerase II inhibitor	Leukemia
Paclitaxel (Taxol)	P045	Chemotherapeutic	Antimicrotubule agent	Bladder, breast, esophageal, lung, ovarian, prostate, stomach, thyroid, others
Streptomycin ReadyMade™ solution	S139	Antibiotic	miR-21 inhibitor	Breast
Tamoxifen	T062	Anticancer agent	Estrogen modulator	Breast
Tigecycline	T022	Antibiotic	Signaling pathway activator	Leukemia, lung
Trastuzumab	T114	Monoclonal antibody	HER2 modulator	Breast
